3D VISUALIZATIONS

# ABOUT

Master in architecture with specialization in Theory and Practice of the Architectural Project, Technical University of Catalonia. In Chile, Spain and The Netherlands he has exercised as an architect and an 3D Visualizer for a large list of projects.

His academic and professional background in architecture and 3d modeling and rendering has led to a wide range of experience developing projects for private, commercial clients and for local authorities.

Currently works at Cravt in Amsterdam as architect and 3d visualizer and design director, leading the entire project development process.
